

Dear FCC

I am extremely concerned about the action that Sinclair Broadcasting is about to undertake in airing the anti-Kerry documentary. The political agenda of this public broadcasting network is blatant but more important I believe, is illegal. This company uses FREE public airwaves. It is your job to make sure the law is followed and the public interest is served.

The FCC took strong action against CBS after the SuperBowl fiasco and I believe the same course should be taken with Sinclair Broadcasting. Running a 90 minute campaign ad for the Republican president is an abuse of the public trust. If people are interested in that it should be pay-per-view, just like for the people who want to see pornography on their TV. Stuff like that is not run on public television and it is you FCC that needs to step in to remedy the situation.

I have come to understand that the son of a high ranking Republican in the present administration is in charge of running the FCC and I surely hope that is not the reason that this body does not do its duty.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
